

ARIPPA AML/AMD RECLAMATION \$20,000 AWARD

[PRESENTED IN RECOGNITION OF ARIPPA'S 20TH ANNIVERSARY]

**All proposals must be postmarked by
July 30, 2010**

**Awards granted under the guidance and administration of
EPCAMR and WPCAMR:**

**Robert Hughes
Executive Director
EPCAMR
570-371-3523
rhughes@epcamr.org**

**Andy McAllister
Regional Coordinator
WPCAMR
724-832-3625
andy@wpcamr.org**

**Copies of this application are available online at:
www.amrclearinghouse.org, www.wpcamr.org,
www.orangewaternetwork.org**

ARIPPA AMD/AML RECLAMATION AWARD

[PRESENTED IN RECOGNITION OF ARIPPA'S 20TH ANNIVERSARY]

Purpose:

To commemorate their 20th Anniversary, the Anthracite Region Independent Power Producer's Association (ARIPPA) is offering a competitive award to watershed organizations working on Abandoned Mine Land (AML) and/or Abandoned Mine Drainage (AMD) remediation projects. **The awards distributed in August 2010 will total \$20,000.** Organized in 1988, ARIPPA is a non-profit trade association based in Camp Hill PA. Membership is located in both the Anthracite and Bituminous Regions of Pennsylvania and comprised of:

- Electric generating plants producing alternative energy and/or steam and
- Businesses associated with the alternative energy industry.

Accordingly, ARIPPA is organized to:

- advance the alternative energy electric power production industry,
- encourage education about alternative energy electric power production and related industries,
- promote the environmentally responsible production of electric power,
- promote the utilization of electricity produced by alternative energy electric power producers
- endorse the continuity and growth of the alternative energy power production industry,
- assist in meeting this country's energy, industrial, economic, and environmental needs.

Due in part to ARIPPA member activities, **unsightly waste coal piles and the problems associated with them are gradually disappearing.** Thousands of acres of land have been and continue to be reclaimed to a natural state or for productive use and future development. ARIPPA facilities remove and utilize waste coal (refuse) from both past and current mining activities, thereby abating acid mine drainage from waste coal piles. ARIPPA reports that 145 million tons of waste coal has been processed and burned for energy by their member plants from 1998 to 2008. Further, the technology used to convert waste coal to electricity, known as Circulating Fluidized Beds (CFB), produce alkaline-rich ash by-products. There are many beneficial uses for CFB ash including; filling mine pits, as a replacement for lime, for acid mine drainage remediation, as a soil amendment at mining sites, and/or as a concrete additive for roadways.

The unique nature of ARIPPA's work combined with the desire to coordinate efforts with environmentally oriented groups and governmental agencies symbolize a commitment to improving the landscape and environment.

Watershed protection is one of the fastest growing areas of community-based collaboration. Throughout the country, watershed groups are playing an increasingly prominent role in environmental management. With their local focus and community base, watershed groups are building consensus and expanding participation within communities across Pennsylvania. It is not uncommon for organizations to operate on an annual unrestricted budget of less than \$5,000, while at the same time implementing \$100,000 projects that directly benefit communities and the environment.

AML projects in particular are costly and long-term endeavors often taken on by non-profit organizations that operate through grant funds. According to the Pennsylvania Mining Reclamation Advisory Board, the average cost of an AML project is at least \$8,000 per acre. If AMD is present on those lands, the cost could be even higher. Pennsylvania organizations have relied heavily on Pennsylvania's Growing Greener funds, which have dwindled in recent years, making it more difficult to fund AML projects. The ARIPPA AML/AMD Reclamation Award is designed to help environmental organizations and Conservation Districts secure extra match and leverage additional funds.

The Eastern and Western Pennsylvania Coalitions of Abandoned Mine Reclamation (EPCAMR and WPCAMR respectively) are organizations working to encourage the reclamation, remediation, and redevelopment of lands and streams polluted by historic coal mining. They serve as liaisons between industry, governmental agencies, and watershed organizations and offer Conferences, educational opportunities, and technical assistance. They endorse state-of-the-art technologies in conjunction with grass roots efforts to solve AML problems. EPCAMR and WPCAMR support the efforts of ARIPPA and will administer the ARIPPA AML/AMD Reclamation Awards.

Grants ranging from a minimum of \$1,000 to a maximum of \$10,000 will be awarded to at least one eligible environmental organization or Conservation District in the Anthracite Region and one eligible environmental organization or Conservation District in the Bituminous Region in the Commonwealth of Pennsylvania actively working on AML/AMD issues. Grant proposals should be for on-the-ground AML/AMD construction projects with a completion date between August 2009 and August 2011. The amount granted is dependent upon demonstrated need. Applying organizations must support the mission of ARIPPA, including the removal and conversion of waste coal into alternative energy and the beneficial use of CFB ash for AML/AMD reclamation

Celebrating 20 Years of Environmentally Beneficial Alternative Energy Production

Eligible Applicants:

- Environmental organizations with 501(c)(3) non-profit status or Conservation Districts in Pennsylvania are eligible. Organizations without 501(c)(3) non-profit status must identify a qualified non-profit association to administer the grant's finances, if awarded.
- Environmental organizations or Conservation Districts who support the mission of ARIPPA, including the removal-conversion of waste coal into alternative energy and the beneficial use of CFB ash for AML-AMD reclamation.

Eligible Use of Funds and Match:

Awards ranging from a minimum of \$1,000 to a maximum of \$10,000 will be given for on-the-ground AML/AMD projects.

The grant application should include a list of specific budgetary items for which funding is requested. Recipients are expected to use grant funds as outlined in their proposals, and projects should be completed between August 2009 and August 2011.

While a cash or non-cash match is *not* required for ARIPPA AML/AMD Reclamation Awards, preference will be given to applications that show match. Non-cash, in-kind contributions are acceptable and may include volunteer time, donated services, or other donated items directly relating to the development of your organization, its mission, or its project(s).

If your proposal is funded, 100% of the grant award will be provided between August 25th and September 10th of 2010.

Grant Recipient Responsibilities:

Upon receipt of funding, your organization is required to:

- Attend and make a five to ten (5-10) minute verbal presentation supported by a photo slide show (such as Power Point) at an awards luncheon on August 25th, 2010 sponsored by ARIPPA, EPCAMR, and WPCAMR.
- Recognize ARIPPA's, EPCAMR's, and WPCAMR's sponsorship in your organization's newsletter or similar publication, if any.
- Recognize ARIPPA, EPCAMR, and WPCAMR in all media and publicity materials distributed by your organization as you promote your project.
- Prominently display ARIPPA's, EPCAMR's, and WPCAMR's name on any project-related reports, handouts, signage, and websites.
- Recognize ARIPPA, EPCAMR, and WPCAMR in at least one press release to local print media about the project. You are encouraged to solicit local print media to write a story about the project.

Applying for the ARIPPA AML/AMD Reclamation Award

To apply for a grant, please do the following:

1. Contact your coal region's representative to verify that your organization and project are eligible for program funds:
 - a. Anthracite Region: Robert Hughes, Executive Director, EPCAMR, 570-371-3523, rhughes@epcamr.org
 - b. Bituminous Region: Andy McAllister, Regional Coordinator, WPCAMR, 724-832-3625, andy@wpcamr.org
2. Follow the guidelines provided in this document when preparing your application.
3. Submit one (1) complete copy of your grant application with all attachments and supporting documentation.
 - a. Preferred Delivery Method: e-mail application to anne@wpcamr.org. Be sure to attach all the required documents stated on the Application Documentation section (page 6) to this e-mail. One word document for items 2-6 is preferred. Please send attachments in either word document or PDF formats.
 - b. Regular mail application is also acceptable and must be postmarked by July 30, 2010, to: WPCAMR, Anne Daymut, 226 Donohoe Road, Suite 110, Greensburg PA, 15601

****Your coal region's representative can answer general application submittal questions and can provide your organization with literature on the beneficial use of coal ash.**

****Once your application has been received, you will be sent a confirmation e-mail to the address listed on the cover page.**

Support AML Reclamation through

Waste Coal as an Alternative Energy Source and

Beneficial use of CFB Ash

Application Documentation

Please provide the following:

1. **Grant Application Cover Page and Checklist** — A “fill-in PDF” form available with these instructions. Download, fill out & save to your desktop, then attach to application.
2. **Executive Summary** — Statement of the organization’s mission, goals, achievements, and current projects. (One page maximum.)
3. **Project Description** — Explanation of the proposed project. In your account, please answer the following questions: (Three pages maximum.)
 - a. Why are you seeking an ARIPPA AML/AMD Reclamation Award?
 - b. How will this grant help your organization attain its goals and objectives?
 - c. What current partners do you have for this project? What additional partners do you hope to bring on board?
 - d. What long-term plan will this grant assist your organization?
4. **Budget Narrative** — Table depicting the project budget? Please include specific items for which grant money is requested.
5. **Project Timeline** — Table depicting the project timeline? Please include start date, expenditure dates, and expected tangible outcome dates.
6. **List of Officers** — List of your organization’s officers/board members, including their contact information.
7. **IRS 501(c)(3) Determination** — Copy of your organization’s IRS 501(c)(3) tax-exempt determination letter. (In the case of those organizations without non-profit status, include a copy of your pass-through organization’s tax-exempt determination letter. See *Eligible Applicants*, page 4.)
8. **ARIPPA Mission Support Letter** — Documentation of your organization’s support of ARIPPA’s mission, including the removal and conversion of waste coal into alternative energy and the beneficial use of CFB ash for AML/AMD reclamation on your organization's letterhead. For more information on ARIPPA visit: www.arippa.org.
9. **Letters of Support** (*optional*) — Letters of support showing partners’ approval of proposed project and confidence in your organization.
10. **Other Information** (*optional*) — Additional literature or narrative that describes your organization or its project that you believe is relevant and important.
